

Salon Ambience

100% MADE IN ITALY 

Shine: Hairdressing display

The Shine display unit boasts two eye-catching glass shelves with integrated LED lighting, presenting hair products in the best possible way, and helping promote product sales inside the salon work area. A clean, minimal white panel offsets the illuminated shelves, with aluminium borders completing the refined look of the display unit. The Shine display unit is now also available in wengè wood (RT/091).

LED 15W - 380 lumen - 4500 kelvin - natural white
